Pathology Grand Rounds:
“Mechanisms of chronic nervous system injury associated with latent herpes simplex virus infection”

**Speaker:** Tibor Valyi-Nagy, MD, PhD, Professor of Pathology, Director of Neuropathology and Interim Director of Anatomic Pathology, at the University of Illinois Hospital & Health Sciences System

**Purpose/Vision:** See the future of medicine and go there today.

**Target Audience:** Physicians, fellows, residents, medical students, physician assistants, nurses, and all other health care personnel.

**Dates and Locations:**
February 20, 2017 from 11 am to 12 pm in the College of Medicine East Tower (CMET) room 268.

**For Information Contact:** uicpathologygrandrounds@gmail.com

After completion of the activity, participants should be able to:

1. Integrate cutting edge research techniques and ideas based on varied clinicopathologic topics into current clinical practice and translational research
2. Evaluate new technology in the assessment of pathologic diseases and recommend adoption of best practices
