

BEST PRACTICES IN PATHOLOGY TEACHING A FACULTY DEVELOPMENT PROGRAM

SPONSORED BY: University of Illinois College of Medicine-Chicago
Department of Pathology and Department of Medical Education

	Orientation – 1 week	Block 1 7 wks	Review/Synthesis	Block 2 8 wks	Review/Synthesis	Winter Break – 2 weeks	Block 3 5 wks	Review/Synthesis	Block 4 8 wks	Review/Synthesis	Block 5 7 wks	Exam/Review/Synthesis	Summer Break – 10 weeks
Professional Development		Responsibilities as Student		Wk/Life balance			Wellness Resilience						
Health, Illness & Society		Population Health Epi/Biostats Health Disparities		Social Determinants			Ex: disability		Ex: smoking and public policy; childhood asthma		Obesity and public health		
Fundamental Knowledge		Genetics Tissue Biol (Individualized review of biochem/molec biol)		Immunology Microbiology Heme Cancer Biol Embryology Pharm Critical Appraisal			Muscle phys Neurophysio ANS rheum gross labs – MSK		Cardiovascular Pulmonary Cellular Respiration gross labs – heart and lungs		GI Renal Endocrine Biochem/Metab Molec Biol Nutrition gross labs – gut, kidneys, adrenal, pancreas		
Health Care Systems		US Health System Intro					High value care (Ex: back pain)						
Clinical Practice of Medicine		Immersion Experiences (IFE?)											

Best Practices – Curriculum Transformation

Workshop Descriptions: This series of workshops focus on aspects of the College of Medicine’s curriculum transformation in which Pathology faculty will play a significant role. Major aspects of the curriculum transformation are expected to be: an integrated curriculum – with five major themes [Foundational Knowledge; Clinical Practice; Professional Development; Health, Illness and Society; Health Care Systems]; more active learning; more formative assessment and feedback on student performance; more rigorous assessment of learning and more comprehensive program evaluation. Our series of workshops will engage us in addressing these topics and issues, which apply to both medical student and graduate programs.

Dates/Location: All in DME 988, Breakfast on Friday Mornings, Appetizers on Tuesday

Afternoons: All Tuesday sessions, 4:00 – 5:30 pm; all Friday sessions, 7:30 – 9:00 am

Curriculum Transformation	July	Tuesday July 19 and Friday July 22
Curriculum Transformation	August	Tuesday August 23 and Friday August 26
Active and Self-Directed Learning	September	Tuesday September 20 and Friday September 23
Active and Self-Directed Learning	October	Tuesday October 25 and Friday October 28
Challenges in Assessment	November	Tuesday November 15 and Friday November 18
Challenges in Assessment	December	Tuesday December 6 and Friday December 2
Curriculum Evaluation for Quality Improvement	January	Tuesday January 10 and Friday January 13

Moderators:

- Ilene Harris, PhD, Department of Medical Education and Department of Pathology
- Amy Lin MD, Department of Pathology
