

Clinical Informatics Fellowship (CIF) AY2022-2024 AMIA-hosted Match Process – For Applicants

Purpose: To describe the mechanics of the AMIA-hosted match process.

Key Dates:

Applicants can access the match system on November 15, 2021 by 8 p.m. Eastern/5 p.m Pacific.

Applicant Rank Order lists to be submitted by December 2, 2021, 11:59 p.m. Pacific time.

Match results will be available December 15, 2021.

Procedure:

1. Applicants will become members of AMIA to participate in the AMIA-hosted Match. This will provide them with an AMIA log in ID to access the applicant match interface at match.amia.org. Applicants that are not currently AMIA members can apply for student membership.
2. Prior to the match, and ideally as soon as possible, applicants will log into match.amia.org and will specify all of the programs to which they applied in ERAS. This step will allow programs to see them as an applicant to their program in the matching system.
3. **IMPORTANT:** If you cannot find a program to which you applied listed (assuming that they are participating in the match), please e-mail the program’s program director or coordinator, and CC: Lee Anne Pirrello at AMIA (leeanne@amia.org). Program information may be found (among other places) by searching the AMIA website (<https://amia.org/careers-certifications/informatics-academic-programs>) or the ACGME website (<https://apps.acgme.org/ads/Public/Programs/Search>).
4. Applicants can use the match system to select a subset of (or all of the) programs to which they have applied to subsequently rank, and can create a rank order list.
5. Applicants can Commit their rank order prior to the applicant match deadline above. If a rank order list is un-committed then a new rank order list must be Commit-ted. The most recent Commit-ted rank order list will be used for the match.
6. **IMPORTANT:** If no rank order list is “Commit”-ted, the applicant will not be entered in the match.
7. **NOTE:** Applicants should not rank programs where they are unwilling to train.

Register for AMIA membership (Student membership is \$50) at:

[Individual Membership | AMIA - American Medical Informatics Association](#)

To get the student membership rate:

- Select “Clinical Informatics Fellowship Match Applicants” for the “University/College” field
- Select “Fellowship” for the “Degree” field
- Enter “Clinical Informatics for the “Program Area” field
- Enter “06/30/2024” for the “Graduation Date” field

Current AMIA members with a membership expiration date of 12/31/2021 or later can go straight to the Match.

Lapsed AMIA members will need to renew their membership prior to the Match. Follow the instructions above for the student rate

Non-Members will need to create a profile and follow the instructions above to receive the student rate.

If the website doesn’t work, you can call AMIA at 301-657-1291 to register by phone.
